MEMORANDUM FOR: Mr. Frank G. Wisner

SUBJECT: CIA Orientation Course for Senior Foreign Service
Officers - June 16-22, 1954

Charlie Hulick of my office has prepared the attached evaluation of the orientation course held at the Agency for certain senior Foreign Service Officers from June 16 to 22.

From Hulick's comments, which he tells me are fully shared by the other members of the class, it seems clear that the exercise accomplished what we had in mind and fully justifies continuance of the program for future selected graduates of the National War College.

We are most appreciative of the great time and effort expended by the many officers of the Agency, sparked by Matt Baird and his staff, which resulted in making this program a success. I am confident that their efforts will pay future dividends both for the Agency and the Department.
